- Download entire **YouTube playlists** with a single click.
- **One-click YouTube music/audio downloads**.
- Download videos and audio from **any website** in one click.
- Supports video/audio downloads from platforms like **Facebook, Instagram, TikTok, Rumble, Odysee, Bitchute, Twitter, Twitch, ArteTV, Fandom**, and more.
- **Batch download** multiple videos simultaneously.
- **Stream or play YouTube videos** online without downloading.
- Supports **YouTube subtitles and closed captions (CC)**.
- YouTube **search suggestions** for quick and easy browsing within the app.
- 100% **ads-free** online video streaming.
- YouTube search integrated with **regional country support**.
- Available in **35+ popular international languages**.

INSTRUCTIONS:

1: If the CPU temperature isn't displayed or is inaccurate in the system monitor, run the following command:

```
sudo snap connect youtube-dl-pro:hardware-observe
```

APP NOTICE:

If the app isn't launching after installation, try running the following commands in your terminal:

```
sudo snap remove youtube-dl-pro --purge; sudo snap remove pyqt5-runtime-core20 --purge
```

Note: Some features are part of In-App purchases.
